

MANAGED SERVICES

Small to medium businesses are constantly challenged to provide new IT services while operating with restricted budgets and limited resources. Regulatory and compliance mandates, IT security, and IT-architecture management issues add exposure and complexity to the problem.

ThruPoint's Managed Services solutions address the challenges of your small- to medium-sized business of 100 to 1000 employees.

Our **Managed Services** solutions for the SMB deliver

- reduction of your IT expenditures;
- improvement in your IT department performance;
- compliant, secure, and manageable technology infrastructures, and;
- flexible, modular solutions, allowing phased migration to a managed service environment.

Our "Office in a Box" solution delivers a flexible, scalable, and modular solution for your networking, voice, IT operations, and IT services. We will deliver any combination of these services to suit your specific business requirements.

Our **Managed Service** solution begins with an analysis of your business goals and an assessment of your current supporting IT infrastructure. We then design a cost-effective, customized IT solution that will move beyond the limitations of your current environment.

Our flexible approach offers:

- **Financing**—our Capital Lease and Operational Lease Programs offer you financial flexibility to suit your business requirements.
- **Consulting**—we know IT, from the large enterprise and service-providers to the small-medium business.
- **Operations and Support**—we enable you to leave your IT operations to a trusted operations and service provider so you can focus on your business.
- **Partner Programs**—you can leverage our established technology partnerships, providing a single point of contact with access to an entire portfolio of services.
